The 2nd International Workshop on Tropical Biodiversity Conservation (The JSPS Core to Core Program)
Centre for Ecological Sciences, Indian Institute of Science, Bangalore, India

Thursday, 12th September, 2013 **Venue: CES Seminar Hall**

Time		Title	Presenter
8:45-9:15		Registration	
9:15-9:30		Opening Remarks and Introduction	Prof. Raman Sukumar
			Prof. Shiro Kohshima
SESSION I: Genetic Analyses and Behabvioural Stragegies			
09:30-10:00	Oral 1	What kinds of data were obtained from fecal samples? -Reports of the genome training course in Kyoto-	Prof. Kiyokazu Agata
10:00-10:30	Oral 2	Hormone metabolites in Fecal samples: Assessment of reproductive status	Prof. Polani B. Seshagiri
10:30-11:00	Oral 3	Molecules support Morphology: Species status of South Indian populations of the widely distributed Hanuman langur	Assoc. Prof. K. Praveen Karanth
11:00-11:30		Coffee Break (Corridor outside seminar hall) & Poster viewing	
11:30-12:00	Oral 4	Hunting for herpetofauna in the Western Ghats: A Wallacean approach to discovering diversity	Assoc. Prof. Kartik Shanker
12:00-12:30	Oral 5	Extreme mating strategies and their ecological consequences in an Indian antelope	Assist. Prof. Kavita Isvaran
12:30-13:00	Oral 6	Moving to stay in place: Behavioral mechanisms of coexistence in African carnivores	Assist. Prof. Maria Thaker
13:00-14:00		Lunch (Ground floor, outside main auditorium)	
SESSION II: Animal-Human Conflicts and Human Influences on Wildlife			
14:00-14:30	Oral 7	The complex dimensions of elephant-human conflicts and their management	Prof. Raman Sukumar
14:30-15:00	Oral 8	Interactions between humans and aquatic mammals in the Amazon	Prof. Vera M. F. da Silva
15:00-15:30	Oral 9	Why study crocodiles in Borneo?	Assoc. Prof. Abdul Hamid Ahmad
15:30-16:00		Coffee Break (Corridor outside seminar hall) & Poster viewing	
16:00-16:30	Oral 10	Bird species richness as an importance indicator in human-altered habitats	Assoc. Prof. Shahrul Anuar Mohd Sah
16:30-17:00	Oral 11	Why bats should be major focus for biodiversity conservation	Prof. David A. Hill
17:00-17:30	Oral 12	Hunting for pleasure, hunting for conservation? -The past and present of sport hunting in Africa-	Assist. Prof. Akito Yasuda
POSTER SESSION			
17:30-18:30		Poster Session	
19:00~		Dinner	

Friday, 13th September, 2013 **Venue: CES Seminar Hall**

Time		Title	Presenter
SESSION III: Animal Behaviour			
09:30-10:00	Oral 13	The organization and evolution of insect societies	Prof. Raghavendra Gadagkar
10:00-10:30	Oral 14	Behavioral and cognitive studies will contribute to species conservation in the zoo -A case of Kyoto city zoo in Japan-	Spec. App. Prof. Masayuki Tanaka
10:30-11:00	Oral 15	Use of natural mineral-licks by Orangutans in Deramakot Forest Reserve, Sabah, Malaysian Borneo	Assoc. Prof. Hisashi Matsubayashi
11:00-11:30		Coffee Break (Corridor outside seminar hall) & Poster viewing	
11:30-12:00	Oral 16	Behavioral studies on wild Japanese macaques	Assoc. Prof. Hideki Sugiura
12:00-12:30	Oral 17	Communication in dholes (*Cuon alpinus*) in captivity and in the wild: The ethogram, vocal repertoire and functions of call types	Shuta Sawaguri, M.Sc.
12:30-13:00	Oral 18	The monkey in the town's commons: An anthropogenic history of the bonnet macaque	Prof. Anindya Sinha
13:00-14:00		Lunch (Ground floor, outside main auditorium)	
SESSION IV: Other Research on Wildlife			
14:00-14:30	Oral 19	Diagnosing tuberculosis in captive Asian elephants: A perspective	Dr. Shalu Verma-Kumar
14:30-15:00	Oral 20	Altitudinal gradient in vector-mediated parasites across Himalayan birds	Dr. Farah Ishtiaq
15:00-15:30	Oral 21	Plant-animal interaction and its implication for conservation of tropical forests	Prof. Takakazu Yumoto
15:30-16:00		Coffee Break (Corridor outside seminar hall) & Poster viewing	
16:00-16:30	Oral 22	Field museum project in Amazon by Japan-Brazil collaboration	Prof. Shiro Kohshima
16:30-17:00		Closing Address	Prof. Raman Sukumar
			Prof. Shiro Kohshima
17:15		Proceed for a cultural evening
