

Program

Time (min.)	Presentation Title	Presenter	Affiliation
8:45- 9:15 (30)	<Registration>		
9:15- 9:20 (5)	Opening Remarks	Shiro KOHSHIMA	Wildlife Research Center of Kyoto university
9:20-10:00 (40)	Talk 1 Bio-logging meets Systems Science of Bio-Navigation	Ken YODA	Nagoya University
10:00-10:40 (40)	Talk 2 Sensing and understanding human and animal activities: Knowledge discovery methods for industry, health care, and ecology	Takuya MAEKAWA	Osaka university
10:40-11:20 (40)	Talk 3 Laboratory and field studies on acoustic navigation of echolocating bats – Tracking of flight paths and ultrasounds	Shizuko HIRYU	Faculty of Life and Medical Sciences, Doshisha University
11:20-12:50 (90)	Commemorative Photo session and Lunch		
12:50-13:20 (30)	Talk 4 Following the Trail of the Elusive Proboscis Monkey in Borneo	Ikki MATSUDA	Chubu University Academy of Emergent Sciences
13:20-13:35 (15)	Talk 5 The relationship between pregnancy of wild Borneo Orangutan and fruit productivity	Noko KUZE	The National Museum of Nature and Science
13:35-13:55 (15)	Talk 6 The challenges of behavioural monitoring in the Amazonian manatees for a relocation program in Brazil	Mumi KIKUCHI	Wildlife Research Center of Kyoto University
13:55-14:05 (10)	Coffe break		
14:05-14:20 (15)	Talk 7 Cryptic Diversity in <i>Hypopygus neblinae</i> (Gymnotiformes): Evidences from the EOD Variation and DNA Barcode Sequences	Renata SCHMITT	National Institute of Amazonian Research
14:20-14:35 (15)	Talk 8 Molecular Characterization of Asian Elephant Population in Palamau Tiger Reserve	Upasana SARAJAU	Center for Ecological Sciences, Indian Institute of Science
14:35-15:00 (15)	Talk 9 Preliminary Results of Habitat Use and Activity Pattern of the Malayan Tapir (<i>Tapirus indicus</i>) in the Belum0 Temengor Forest Complex, Parak, Malaysia	Christopher WONG	University of Siences Malaysia
15:00-15:15 (15)	Talk 10 What could Ethnoprimateology bring to Ontological turn in Anthropology?	Danhe YANG	School of Sociology And Anthropology, Sun Yat-sen University
15:15-15:30 (15)	Talk 11 Variation of Genes Encoding Bitter Taste Receptors in Leaf-eating Monkeys	Laurentia Henrieta Permita Sari PURBA	Bogor Agricultural University
15:30-15:45 (15)	Coffe break		
15:45-16:15 (30)	Talk 12 Bio-logging Complexity: Ecological Challenges and the Emergence of Behavioural Organization	Andrew MACINTOSH	Primate Research Institute of Kyoto University
16:15-16:30 (15)	Talk 13 Cryopreservation and xenotransplantation of primitive oocytes within the ovary for preserving the female fertility of endangered animals	Mayako FUJIHARA	Wildlife Research Center of Kyoto university
16:30-16:45 (15)	Talk 14 How do captive chimpanzees acquire the bed-building behaviors?: Maintaining behavioral diversity among zoo-housed chimpanzees	Yumi YAMANASHI	Wildlife Research Center of Kyoto university
16:45-17:00 (15)	Talk 15 Spatial distribution of clonal geckos and their personalities associated with microhabitat	Osamu SAKAI	Department of Zoology, Graduate School of Science, Kyoto University
17:00-17:15 (15)	Talk 16 Genetic Signatures of Lipid Metabolism Evolution in Cetacea	Yoshinori ENDO	Wildlife Research Center of Kyoto university
17:15-17:25 (10)	Coffe break		
17:25-18:25 (60)	Poster session		
18:25-18:30 (5)	Closing Remarks	Shiro KOHSHIMA	Wildlife Research Center of Kyoto university
